Real Silver, and Electro-silver plated Goods, of almost every pattern represented in this Catalogue, are either kept in stock by us, or can be made and delivered within 8 or 10 days after receipt of order.

Our large stock of Table and Pocket Cutlery, as well as of the various other goods illustrated in this Book, enables us to execute most orders immediately upon their receipt; and such goods as may not be in stock, can, in most cases, be made and delivered within 14 days from receipt of order.

STERLING SILVER GOODS.

BRITISH MANUFACTURE.

*You will greatly oblige by favouring us with your orders
for your Christmas trade as early as possible, to
avoid any delay or disappointment.*

ERRATUM.—*In the CONTENTS, for pages 83½ and 84½ read 62½ and 63½.*

EARLY ENGLISH STYLE CHIMING AND GONG CLOCKS.

No. 4658.—Clock, Early English style, in black wood or oak case, embellished with hand-painted porcelain plaques and dial; 15-day movement, striking the hours and half-hours on a cathedral-toned gong.

No. 4660.—English Chime Clock, in black wood case, with brass mounts, ornamental brass dial with silvered centre, very highly finished 8-day movement, chiming the quarters on the Westminster chimes and also upon eight bells, and striking the hours on a cathedral-toned gong; with patent stop movement by which the clock can be made either striking or silent, as desired. Height 18½ inches, length 16 inches, depth 9½ inches.

No. 4659.—Clock, Early English style, in black marble case, engraved gilt lines, with hand-painted porcelain plaques and dial; 15-day movement, striking the hours and half-hours on a deep-toned gong.

No. 4661.—English Chime Clock, in black wood case, with extra rich gilt mounts and moulding, fancy pierced and embossed gilt top, ornamental brass dial with silvered centre; very highly finished 8-day movement, chiming the quarters on the Westminster chimes and also upon eight bells, and striking the hours on a cathedral-toned gong; with patent stop movement by which the clock can be made either striking or silent, as desired. Height 26 inches, length 15 inches, depth 10 inches.

No. 4662.—English Chime Clock, in handsomely carved oak case, engraved silvered dial, very highly finished 8-day movement, chiming the quarters on the Westminster chimes and also upon eight bells, and striking the hours on a cathedral-toned gong; with patent stop movement, by which the clock can be made either striking or silent, as desired. Height 30 inches, length 18½ inches, depth 11 inches.

English Skeleton Clocks. English Dial Clocks. Turret Clocks. Railway Clocks for England and the Colonies.
Clocks can be fitted with Silver or Gold Inscription Plates. Photographs of Clocks, Bronzes, and other Side Ornaments sent upon application.

SILBER'S PATENT PETROLEUM BURNERS AND PUNKAH OR STORM PROOF LAMPS.

The Silber (Patent) Circular Burner (for burning petroleum, paraffin, or kerosene) gives a light equal to 22 sperm candles, and with the present method of winding the wick no difficulties are experienced. The wick is flat, $2\frac{3}{8}$ inches wide, but by the process of winding it emerges at the top of the wick-tubes in a circular form. In consequence of only about the thirty-second of an inch of wick being exposed above the wick-tube (to produce the necessary efficient light), it carbonises very slowly, and the only attention required to keep the wick in proper condition for performing its functions is to rub a duster over it so as to remove the charred portion once every three or four days, and to fill the oil container with oil every day.

Light for light, it is the most economical burner extant. This burner can be supplied with a screw collar as shown on lamp No. 4731, on page 139; with the Universal Collar as shown in the engraving No. 4713 on this page; or with the bayonet fastener collar as shown in engraving 4712, also on this page.

The Silber Miratus Duplex Burner offers all the advantages explained in paragraphs 1 to 8 on this page. It has two parallel wicks, each $1\frac{3}{8}$ inches wide.

The Silber Miratus Burner is of similar construction to the Miratus Duplex Burner, but has only one wick, $1\frac{3}{8}$ inches in width, and is not provided with an extinguisher. The light it affords is equal to that of about 25 sperm candles.

The chief advantages offered by Silber's MIRATUS DUPLEX EXTINGUISHING BURNER are—

1. The Burner is so constructed that it evolves the least possible heat compatible with proper combustion.
2. Simplicity of trimming—the wick only requiring to be cut off level with the top of the wick tubes. The corners need not be cut off.
3. Increased illumination—which is far in excess of that obtained from any other Duplex burner, and can be reduced or increased, up to 35 CANDLE-LIGHT, at will.
4. Duration of light—the flames are maintained at a uniform height, without appreciable diminution during the whole period of burning.
5. Economy of consumption—the atmospheric air being properly and scientifically mixed with the flames, no particles of the oil can pass off unconsumed; the light therefore showing proper combustion, the atmosphere is kept free from smell.
6. Preservation of wick—the same adjustment of air supply tends to prevent the too rapid carbonization of the wick, a smaller quantity of which is exposed to the flame than in ordinary flat-wick burners, so that it is only necessary to cut the wick every third or fourth day.
7. The flames are almost inappreciably affected when the lamp is carried about.
8. The Extinguisher is so constructed that in putting out the light it does not in any way interfere with the wick, nor necessitate further trimming before the lamp can be re-lighted.

“SILBER’S”
MIRATUS DUPLEX
BURNER
WITH
EXTINGUISHER.

WHAT IS THE SILBER LIGHT ?

The Silber Light is the most economical, the purest, and steadiest light ever produced from vegetable, mineral, or animal oils, or coal gas.

—See Report of Professor William Valentin, Principal Demonstrator of Practical Chemistry, Royal College of Chemistry, London.

The Silber Storm Lamp ; will burn in the open air equally as well as in the drawing-room.

No. 4714/611.—White Bohemian Glass Vase Lamp, decorated all round with festoons of flowers and gold lines, and with assorted rose, blue, or black bands, movable oil container.
No. 4715.—Decorated Punkah Globe, shown above.

The Silber Punkah Lamp will burn perfectly steady under a punkah.

No. 4716/743.—Very handsome solid cast brass Tripod Stand, lacquered or bronzed and relieved with richly decorated Bohemian glass pillar and oil container, mounted with improved Wind or Punkah Proof Burner.
No. 4717.—Opal Punkah Globe, with clear crystal bottom, shown above.
No. 4718.—Bronzed or relieved Punkah Top, shown above. This top offers increased resistance to the agitation of the punkah.

SYDNEY, 1880.

All lamps fitted with the Silber Patent Circular Storm Burner will burn equally well in the open air as in the drawing-room.

No. 4719/737.—Richly cut Crystal Pillar, fitted with electro-plated mounts and improved Silber Storm burner.
No. 4720.—Three-quarter ground Punkah Globe, shown above.

All lamps can be fitted with Silber's Wind or Punkah Proof burners, the advantages of which are that under a punkah on the verandah, in the camp, or elsewhere, exposed to the wind or violent agitation of the air, the light remains perfectly unaffected.

No. 4713/672.—The New Silber (Patent) Petroleum Burner, with latest (1879) improvements, the advantages of which are described above.

No. 4712/828.—SILBER'S MIRATUS DUPLEX BURNER, with EXTINGUISHER, is constructed upon the most approved scientific principles, and affords a higher illuminating power than any other Duplex Burner in the Market; it is fitted with a Collar which enables it to interchange with the ordinary Duplex Burner. (Drawn full size.) For advantages offered by this burner please read paragraphs 1 to 8 on this page.

The prices quoted are in accordance with the quality of the lamps or burners. All lamps can be had mounted with any ordinary burner if required.

No. 4732/1. — Brown bronzed, height to top of burner 11 inches; bronzed stand, height 6½ inches.

No. 4733/81. — French bronze Petroleum Lamp, mounted with Silber's Miratus Duplex Extinguisher burner. Height to top of burner 17 inches. The advantages of the burner shown in this lamp are enumerated at length on page 138.

No. 4734. — Opal Universal Shade, with clear crystal bottom, shown above.

Each of the above Lamps can be had fitted with either of the Silber Burners shown or described on Page 138. More than 2000 patterns of Petroleum Lamps in stock, which can be had fitted with the Silber Circular Burner, Miratus Burner, or Miratus Duplex Burner with extinguisher.

The prices quoted are in accordance with the quality of the lamps or burners. All lamps can be had mounted with any ordinary burner if required.

ECCLESIASTICAL SUSPENSION AND BRACKET LAMPS, MICROSCOPIC AND "WELLINGTON" READING LAMPS.

First Class Award,

Sydney, 1880.

Orders for ECCLESIASTICAL GAS FITTINGS AND LAMPS of every description, and made according to special designs, executed at a very short notice.

First Class Award,

Sydney, 1880.

No. 4735/720.—Bronzed Suspension, with movable opal oil container, and 12-inch opal shade, very suitable for church and schoolroom purposes.

No. 4736/475.—Lacquered Brass Suspension, with star-cut flint oil container.

No. 4737/723.—Polished Brass Ecclesiastical Suspension, with cut crystal oil container.

No. 4738/725.—Polished Brass Ecclesiastical Suspension, and 12-inch opal shade.

No. 4739/113.—Medieval Side Bracket, painted and relieved in colours, or lacquered, or bronzed and relieved, with crystal oil container. Projection 14½ inches.

No. 4740/200.—Three-light Gothic Corona, in polished brass, or painted and relieved in colours, with cut crystal founts. Extreme length 4 feet 7 inches. Corona can also be had fitted with the star-cut fount, as shown in Engraving No. 4741/302 on this page.

No. 4742/926.—Microscope Lamp, in lacquered brass, with white porcelain concentrator, so arranged that the light can be raised or lowered at will.

No. 4743.—A larger and more useful Microscope Lamp, fitted with Silber Burner, porcelain concentrator, French lens condenser, and movable ring, for holding porcelain hot water bath or drying closet, in polished brass.

No. 4743bis, as No. 4743, but in japanned tin.

No. 4744/582.—Polished Brass Pulpit Light, with star-cut fount. Height 19½ inches.

No. 4745/112.—Medieval Side Bracket, painted and relieved in colours, or lacquered, or bronzed and relieved, with crystal oil container. Height 15½ inches; projection 16½ inches.

No. 4746/927.—Polished Brass Reading Lamp, with patent Silber Burner, for Colza oil, fitted with the Wellington shade, which enables the reader to obtain the full benefit of the light without the inconvenience of having the heat of the lamp so near his face as with the ordinary reading lamp.

No. 4747/927.—As No. 4746, but nickel or electro-plated. Can also be had for burning petroleum, paraffin, or kerosene; please state which is required when ordering.

No. 4748/120.—Medieval Side Bracket, painted and relieved in colours, or lacquered, or bronzed and relieved, crystal oil container, with star-cut bottom. Height from base to top of cone 18 in.

No. 4749/110.—Gothic Pulpit Light, painted and relieved in colours, or lacquered, or bronzed and relieved, with crystal oil container. Height to top of cone 2 feet.

NOTE.
The Star-cut Crystal Fount, shown in this engraving, No. 4741/302, is very suitable for street and wall lamps, and for railway station platform lamps as well as for brackets, suspensions, and other domestic lamps. For street or station lamps it can be fitted with either of the three burners shown on page 138, or with Silber's Chimneyless Burner, which only requires a pine-shaped globe which can be very easily cleaned.

No. 4741/302.—Medieval Bracket, in ecclesiastical colours, or lacquered, or bronzed and relieved, with star-cut bottom clear crystal fount. Projection 18 inches.

EACH BURNER BEARS THE TRADE MARK

OF THE SILBER LIGHT COMPANY.

SILBER'S PATENT TUBULATED OR ARGAND GAS BURNER.

The Silber Tubulated Gas Burner, for the amount of gas consumed, gives more illuminating power than any other gas burner yet introduced; when a 7-inch chimney is used it gives a light equal to 22 sperm candles for a consumption of 5 cubic feet of gas per hour, and by substituting a larger chimney a proportionate increase of light is obtained. Chimneys kept in stock, 7-inch, 8-inch, 9-inch, 10-inch.

SILBER'S PATENT CONCORDIA (FLAT-FLAME) GAS BURNER.

In this new burner the Silber Light Company claims to have ascertained the proper point at which the convergence of two flames should occur, and by the introduction of a properly and mathematically adjusted combination, the atmospheric oxygen is driven into the flame at the right elevation, and in this way better combustion is induced. The results given by these burners are absolutely unprecedented and without parallel in any flat-flame gas burner hitherto before the public.

SILBER'S BATSWING GAS BURNER.

These burners are constructed for burning from 2 cubic feet of gas per hour, and they are superior to any batwing gas burners in the market.

First Class Award,

Sydney, 1880.

No. 4794/569.—Railway Station or Wall Lamps, for burning petroleum, paraffin, or kerosene, made in four sizes. They are absolutely wind-proof, and keep the oil at a very low temperature, as all the air to support combustion circulates around the oil container. They are used upon some of the chief railways in England, and in Tea Houses and the like in the colonies and elsewhere.

No. 4795/913.—Ship Signal Lamps in copper, japanned tin, or galvanised iron, with plano-convex or dioptric lenses, to burn colza oil or petroleum as desired. Constructed in accordance with the Board of Trade regulations. Silber's Patent Masthead and Bow Lanterns, for burning colza oil without a chimney, with flat or circular wicks. These lamps are constructed upon scientific principles, and will burn from 16 to 24 hours without requiring any attention. They are supplied to the English, French and German navies.

No. 4796/103.—Outside Shop Lamp, for burning petroleum, paraffin, or kerosene, on the Silber principle. In japanned tin, with polished interior.

This lamp can be fitted with Silber's Miratus Duplex, Miratus ordinary Duplex burners, or with the Patent Silber burner, as drawn.

No. 4797/478.—Japanned Hand Lantern, with bull's-eye and dark slide. A variety of similar lanterns kept in stock. Burn only colza or other vegetable oils.

No. 4798/522.—Japanned Bull's-eye Dark Lantern, in all sizes. Burns only colza or other vegetable oils.

No. 4802/785.—Lacquered brass Saloon Suspension, with wind-proof burner and movable oil container, for burning petroleum, paraffin, or kerosene. Can also be had for burning mineral sperm oil.

No. 4800/789.—Brass Gimbal Bracket Lamp, for colza oil.

No. 4803/915.—Bracket Lamp, lacquered, bronzed and relieved, nickel or electro-plated, fitted with wind-proof burner. This lamp burns mineral sperm oil, petroleum, paraffin, or kerosene, and is so arranged that the globe and upper portion of the burner can be raised for removing the reservoir with the greatest facility. Every variety of Ship Lamps estimated for. Drawings and prices forwarded on application free.

No. 4804/783.—Japanned (colza oil) Back Lamp, with electro-plated reflector, very suitable for cabins and passages.

No. 4805/871.—Silber's Patent Street or Station Platform Lamp, for burning petroleum, paraffin, or kerosene. It is made to fit the ordinary 14-inch iron cradle. The strongest wind will not affect the light in this lamp. The leading railways in England use them for station platform purposes, and they are also in use in all parts of the world. A large variety of Street Lamp Columns at various prices.

No. 4801/781.—Lacquered or bronzed and relieved Suspension, to burn colza oil, for ship's use, with opal shade.

No. 4806/116.—Japanned Back Lamp, with electro-plated reflector and Silber's '79 burner. Can also be had fitted with Silber's Miratus Duplex, Miratus, or ordinary Duplex burners.

No. 4807/914.—Lacquered, bronzed and relieved, nickel or electro-plated Gimbal Bracket Lamp, fitted with wind-proof burner. This lamp burns mineral sperm oil, or petroleum, paraffin, or kerosene, and is so arranged that the globe and upper portion of the burner can be raised for removing the reservoir with the greatest facility.

Prices are quoted without globes or chimneys, and vary according to the description of burner and oil container required.

The prices quoted are in accordance with the quality of the lamps or burners. All lamps can be had mounted with any ordinary burner if required.

SILBER'S AEROTHERMS (HEATING STOVES) FOR BED AND SITTING ROOMS, HALLS, AND GREENHOUSES,
AND COOKING STOVES FOR CULINARY PURPOSES.

EACH STOVE BEARS THE TRADE MARK

OF THE SILBER LIGHT COMPANY.

No. 4830/923.—This Stove (Silber's Aerotherm) is so arranged that air enters at either side of the flue at the lower end, and passing up over its heated service has its temperature much raised before being liberated at the orifices on either side at the top. The small plate at top can be removed, and a kettle, saucepan, or frying-pan substituted for boiling or cooking purposes. This stove is also made with a china top, similar to that shown upon engraving No. 4834 (the third in this row).

No. 4831/904.—This Stove (Silber's Double Aerotherm) is constructed upon principles similar to No. 902 (see next engraving), but, in addition to the atmospheric chambers at either end, it has a large chamber between the two burners through which the cold air of the apartment is drawn in considerable volume and liberated at a very high temperature. Ornamented with decorated tiles.
No. 4832 as No. 4831, but with plain white tiles.
No. 4833 as No. 4831, but in plain japanned iron.
These stoves are also suitable for cooking purposes, as two utensils can be employed on the top.

No. 4834/902.—Silber's Aerotherm, or Heating Stove. This stove is specially constructed for raising the temperature of rooms, halls, and conservatories. The flue is made of china or other ceramic ware, and on both sides there are atmospheric chambers into which the cold air of the apartment is drawn and liberated at the outlet at a temperature of about 240° Fahr., without being impregnated with the products of combustion. The china top is removable, and a kettle, saucepan, frying-pan, or other utensil can be employed for cooking purposes.

No. 4835/601.—Heating Stove or Apparatus, formed by placing upon the stove a cylinder for conveying the heat into the room. The cylinder can be removed, and a kettle, saucepan, or other utensil substituted. The heating portion can be had separately; it is made in two sizes only.

No. 4836/900.—Small Stove, suitable for boiling eggs or sufficient water for two cups of coffee or tea, and is thoroughly suitable for nursery purposes.

No. 4837/903.—Silber's Illuminated Aerotherm, or Heating Stove. This stove is specially constructed for raising the temperature of rooms, halls, and conservatories. The flue is made of china or other ceramic ware, and on both sides there are atmospheric chambers into which the cold air of the apartment is drawn and liberated at the outlet at a temperature of about 240° Fahr., without being impregnated with the products of combustion. The china top is removable, and a kettle, saucepan, frying-pan, or other utensil can be employed for cooking purposes. For cheerfulness we know of no stove at all equal to it in appearance.

No. 4838/924.—This small Stove is a very useful one, as when not required for heating purposes it can be used with a small kettle for nursery purposes, as shown in engraving No. 4836 (the second in this row).

No. 4839/925.—This Heating or Cooking Stove is strongly recommended on account of its twofold capacity for cooking and for heating. It will boil two quarts of water in about twenty-five minutes, and is equally suitable for boiling vegetables or meat, and also for frying purposes. With the heating cylinder (which is of special construction) it makes an excellent heating stove, and is especially suitable for greenhouses and bedroom purposes.

No. 4840/895.—Silber's Patent Miratus Stove, for cooking small joints, chickens, chops, steaks, or pastry, as well as for boiling vegetables or water. Size of oven, 9 in. x 8 in. x 6 in. The cost of the oil consumed in this stove is about one halfpenny per hour.

No. 4841/901.—Is a very useful stove for boiling or frying.

No. 4842/601.—Represents a boiling or frying Stove with kettle; can be had with one or two burners.

No. 4843/899.—Silber's Breakfast Oven is the handiest article of the kind in the market. It is so arranged that several rashers of bacon and eggs, or three or four chops or steaks, can be cooked in the oven at the same time as the kettle or saucepan is boiling on the top. It is strongly recommended for general use.

SOLID LEATHER AND BASIL PORTMANTEAUS AND TRUNKS, AMERICAN TRUNKS, LADIES' DRESS BASKETS, HAT AND BONNET BOXES, GLADSTONE AND OTHER TRAVELLING BAGS.

No. 4844.—Coat Case, best Devon basil leather, with expanding top, lined with holland, and fitted with shirt case on inside division.

No. 4929.—Refrigerator, or Portable Ice Chest, lined with zinc.

These greatly improved mills are constructed so that they can be quickly screwed to the table or dresser and instantly removed when done with, or they can be permanently fixed to the wall. They are also constructed so that a large amount of grinding surface is brought into operation, and, by means of a regulating lever screw, can be immediately adjusted to grind, either coarse or fine. By a peculiar arrangement, the cutting parts are prevented from injuring each other, thereby securing greater durability. They are provided with a suitable canister for the reception of the coffee or other substance when ground, and which, when not in use, serves as a cover or lid to the hopper. These mills will be found to give the utmost satisfaction, being well made and very effective for grinding coffee, pepper, spice, rice, &c.

No. 4931.—Wringing Machine, with best vulcanised india-rubber rollers and patent pressure link, which relieves both rollers and linen from undue strain.

No. 4932.—Ice Box, with separate compartment for ice.

No. 4933.—Improved Premier Box Mangle.

No. 4934.—Improved Wringing and Mangling Machine, with lever and weight pressure.

No. 4935.—Ice Safe, suitable for small families. The top may be used as table or sideboard.

No. 5060.—Weighing Machine, with stand and weights.

FILTERS, GLASS AND CHINA WARE.

STONE REFRIGERATIVE FILTERS.

No. 5062.

This Filter is made of porous stone, in the shape of a bottle, and on account of its simplicity in use, will be found invaluable in hot climates, or where it is difficult to obtain pure water.

When filtered water is required, it is only necessary to place the filter empty, even in the most dirty water, ponds, rivers, &c., when the water will filter through the sides into the bottle, from whence it can be used in a purified state.

To keep the water in the filter, a cork tightly inserted into the neck will prevent it oozing through, consequently it is especially adapted for travelling purposes.

By slightly raising the cork the water will gently ooze through the sides, and the rapid evaporation from the surface, which always takes place in hot climates, will produce a most refreshing and delightful coolness in the water.

To clean it, it is sufficient to brush the exterior with a hard brush, or to blow into the interior, in order to open the holes in the stone.

When the filter is new or long out of use, the first two or three filterings should be thrown away.

These filters are made in the following sizes:—1 pint, 1 quart, 2 quarts, 3 quarts, 4 quarts, 5 quarts, 6 quarts.

No. 5064.—Earthenware Filter, Admiralty pattern.

These Filters can be taken to pieces, every part of the same can be thoroughly inspected, washed, and kept clean.

No. 5064 is made in six different sizes, to hold either 1, 2, 3, 4, 5, or 6 gallons.

No. 5065 is made in six sizes, to hold either 4, 6, 8, 10, 15, or 20 gallons.

Every other Description of Filters sent to order.

All Filters are carefully packed.

No. 5065.—Barrel-shape earthenware Filter.

No. 5066.—Superior white porcelain. No. 5067.—Superior white porcelain, and decorated green and gold.

GLASS FILTERS.

PLAIN, ENGRAVED, OR CUT.

No. 5063.—Glass Filters, fitted with carbon blocks complete, 2 pints, 3 pints, 4 pints.

No. 5063½.—As No. 5063, cut glass, richly engraved, vines and 2 pints, 3 pints, 4 pints.

These filters are made of stout glass; the filtering medium being secured by a carbon block, fitted into the bell funnel, it is not liable to become loose nor to allow the water to pass unfiltered. The filters are suitable for bed-room and table use, affording a ready and simple means of obtaining purified water at any time.

No. 5063.

No. 5068 Filter is made in the same shape and outward appearance as No. 5065. Both filter and pan (which is movable) are of the best London made earthenware. The handles of the pan allow the same to be lifted out with great facility, and access is thus obtained to the whole of the interior. The letters (a a) show the movable pan, and b b the space for the filtered water. The charcoal block is the same as those in use in Atkins's "Admiralty Pattern" Filters, which have been in use now throughout the whole of the Royal Navy, Lighthouses, Royal Naval Hospitals, &c., for over fifteen years. The charcoal block is fitted on a thick, strong glass or metal tube, and can be easily taken out and replaced as often as desired. To clean the block it is taken out and scraped with a knife and rinsed in perfectly clean hot water. When worn out a new one may be obtained and fixed in its place. (See "Directions for Use" sent out with each filter.)

No. 5068.—New Patent "Safety" Filter, which takes completely to pieces and allows access to the whole of the interior. Sectional drawing. For pattern see No. 5065.

No. 5126.—Swing Kettle on stand, copper, brown planished, with spirit lamp, 4 pints, 5 pints.

The above patterns are extra strong and well finished.

LATEST NOVELTIES IN JEWELLERY, WATCHES, CARD CASES, OPTICAL GOODS, ETC.

BEST SILVER AND GOLD WATCHES.

Minute Repeating Watch.

Independent Centre Seconds Watch.

No. 1208.—Gentlemen's 14-carat Gold Keyless Open-face Watch, cut crystal bevelled glass, in plain or engine-turned case, metal dome, Geneva lever movement, good quality, 10 holes jewelled, compensation balance.

No. 1209.—Gentlemen's Gold Keyless Minute Repeating Watch, in very strong 18-carat gold hunting cases, best quality, lever movement, compensation balance, jewelled in 22 holes. When the slide on the rim of the watch is moved the watch strikes the hour, quarters, and minutes.

No. 1210.—Gentlemen's Gold Keyless English Lever Watch, in hunting case, with independent centre seconds, best quality movement, fully jewelled, extra heavy case. This watch is now used by most members of the medical profession.

No. 1211.—Gentlemen's Gold Keyless English Lever Watch, cut crystal bevelled glass, best quality, 3-plate movement, extra jewelled.

No. 1213.—Gentlemen's Gold Open-face English Lever Watch, cut crystal bevelled glass, extra jewelled, chronometer balance.

No. 1214 as No. 1213, but with 3-plate movement.

Clock Watch.

Strikes the Hours, Quarters, and Half Hours.

No. 1216.—Gentlemen's Gold Keyless Repeating Clock Watch, in very heavy 18-carat gold hunting cases, best quality, lever movement, compensation balance, jewelled in 22 holes. This watch strikes the hours and quarters at every quarter hour. It will also repeat the hours and quarters at any time by merely moving the repetition spring. By moving the stop marked "Silence" it will not strike.

Calendar Watch.

No. 1217.—Gentlemen's Gold Keyless Calendar Watch, in very strong 18-carat gold hunting cases, best quality, lever movement, compensation balance, jewelled in 22 holes. This watch shows the day of the week, the date of the month, and the name of the month, also showing the phases of the moon.

No. 1212.—Gentlemen's Gold Keyless English Lever Watch, in half-hunting case, plain or engine-turned, 3-plate movement, extra jewelled, gold balance.

No. 1215.—Gentlemen's Silver Open-face Watch, cut crystal bevelled glass, superior horizontal movement, 8 holes jewelled.

Calendar Watch.

No. 1220.—Gentlemen's Gold Open-face Keyless Calendar Watch, cut crystal bevelled glass, best quality, English lever movement, fully jewelled, chronometer balance, showing day of the week, date of the month, and name of month.

No. 1221 as No. 1220, but in hunting cases.

No. 1222.—Gentlemen's Silver Open-face Keyless Chronograph Watch, cut crystal bevelled glass back and front, registering to one-fifth of a second. Very valuable for timing races, &c.

No. 1223 as No. 1222, but with covered back.

No. 1224 as No. 1222, in 14-carat gold case.

No. 1225 as No. 1222, in 18-carat gold case.

Silver Chronograph.

Face

Showing the reverse side with Open Movement.

Chronograph.

No. 1226.—Gold Keyless Chronograph, white enamel face, sunk seconds, chronograph hands, independent centre seconds, registering to one-fifth of a second, jewelled in 21 actions, and compensated for any extreme of temperature, 18-carat hall-marked hunting case, engine-turned or plain.

No. 1227 as No. 1226, but in open face, cut bevelled crystal glass.

Kindly refer to the Price List of Specimen Pages of Glass and China Catalogue lately sent you; you will find that the two following numbers were omitted from Page 11.

- No. 2192. Mechanical Piece, under glass shade, representing a Lady at a Sewing Machine. Height 26 inches, length 16 inches. Female figure richly dressed, working a sewing machine in a very natural manner. The figure moves its head, arms, and foot, and the machine works in splendid imitation of a real sewing machine. Two airs of music, each 5 s.
- No. 2193. Mechanical Novelty, specially adapted for the Tea and Grocery trades. Height 26 inches, length 24 inches. Figure representing a Chinaman richly dressed in green and crimson satin, embroidered with gold lace; height of figure, 21 inches. The figure moves its head, eyes, and mouth, and also the arm with the wand. The tea canister in front of the figure contains four tablets, which revolve apparently at the direction of the Chinaman's wand, only one tablet being exposed to view at one time. The tablets, being movable, can be written upon to suit any style of advertisement required. each 8 15 s.

AND CUTLERS.

TRADE MARK.

TO THEIR
ILLUSTRATED PATTERN BOOK.

THE annexed Price List, giving the prices of the goods represented in the accompanying Catalogue by about 2000 illustrations, will, when closely examined, prove that we are able to meet any fair competition.

The advantages our customers will derive, are:—

First. They will be in a position to place before their customers a book containing 2000 Engravings of Real Silver and Electro-Silver Plated Goods, Britannia Metal Ware, Cutlery, &c.

Secondly. The large Stock held by us of goods of nearly every pattern represented in the Catalogue, offers facilities in the prompt execution of orders, and will enable our customers to procure the right goods at the shortest possible notice.

These advantages, combined with strict attention to every detail of the business, and the most careful packing of the goods, will, we trust, ensure to us your esteemed commands.

ALL PRICES QUOTED ARE NETT.

It is impossible to give the exact weight of Sterling Silver Forks, Spoons, &c., as scarcely any two dozen weigh alike. We have, therefore, given the approximate weight, and the prices will vary according to the weight.

Salt Spoons, Mustard Spoons, Sugar Tongs, Moist-Sugar Spoons, Egg Spoons, and Marrow Spoons, in proportion to the above quotations.

Silver and Duty 6/6 per ounce, in addition to cost of fashioning. For full-size drawings of Spoons, Forks, &c., see pages 78 to 80.

When we ship new Silver, we are able to obtain a drawback of 1/6 per ounce, provided the quantity shipped be not less than 25 ounces, and the sum so obtained by us, less expenses incurred, will be deducted from the invoice. On Silver for use on board ships, and second-hand Silver, no drawback is allowed by the Government.
